Tip or Complaint: Air pollution including known pollutants as paint , emissions and rubber. Do not know other air pollutants, can't identify. Known land and water pollutants are oil, petroleum, paint. Can't identify other water and land pollutants at this time. Noise pollution from the train, vehicle transports, employee shuttles and excessive traffic on roads and including cutting through neighborhoods. Excessive heat from the plant and traffic. I have lived here 5 years and have gotten ill possibly from the pollutants. I am disabled and can't afford a physician to find out. The area neighborhoods can't sit outside or have windows open for fresh air because there is none. People have to run air conditioning or since I can't afford it I have to travel away from my home to get fresh air. My garden plants do not grow properly they are odd shaped and colored which may be from pollutants and which my son and I eat making me think maybe we are poisoning ourselves through the pollutants. I DO NOT ANSWER MY PHONE BUT CAN BE REACHED BY TEXT AT SAME PHONE NUMBER GIVEN BELOW OR E-MAIL
